Key Product Bullet Points:

- Enhanced rider comfort with a 3" landing zone and vibration-reducing rubber isolators.
- Adjustable up to 5 3/8 inches for a customizable and comfortable ride.
- Constructed from durable die-cast aluminum for long-lasting use.
- Secure installation with robust mounting to the frame tube.

Show Chrome® introduces the Adjustable Highway Pegs for the Can-Am Ryker. With a generous 3" landing zone, these pegs are designed for comfort and ease of use. The rubber isolators on the pegs decrease vibration and ensure a firm grip, improving the rider's control and comfort.

The pegs offer an impressive 5 3/8 inches of adjustability, allowing riders to find their perfect fit and giving them a chance to stretch out while on their Ryker. The die-cast aluminum construction ensures durability and strength, reflecting Show Chrome's commitment to quality.

Installation requires disassembly of the side panels to access the frame tube. Mounting the clamp to the frame tube requires 4 bolts on each side, ensuring a secure fit.
