Key Product Bullet Points:

Easy access to behind-seat storage with extended 6" OEM lever for effortless installation.

Product Description:

Adjusting the seat and accessing behind-seat storage has never been easier. This seat lever extender from Show Chrome® increases the length of the OEM extender, making it easier and faster for riders to adjust and fold forward Slingshot seats. Made of polyamide for weather and use durability, the full part is 6" long and meaningfully increases the length of the lever compared to the stock version. Installation is simple, only requiring removal of the OEM screw and lever, then reinstalling the new lever with the existing OEM screw.
